7 document when the document can be handled by the print job acceptor. and
8 acquiring and printing the document by the print job acceptor based upon the provided
9 document identifier;
10 wherein the document identifier comprises a uniform resource locator.

1 2. (Canceled)

1 3. (Previously Presented)The method of claim 1 wherein the single user action
2 comprises clicking on the uniform resource locator.

1 4. (Previously Presented)The method of claim 3 wherein the providing comprises
2 sending the uniform resource locator to the print job acceptor.

1 5. (Previously Presented)The method of claim 1 wherein the single user action
2 comprises displaying a context menu associated with the uniform resource locator and selecting
3 to direct print the document identified by the uniform resource locator using a single operation of
4 a cursor control device.

1 6. (Original) The method of claim 5 wherein the providing comprises sending
2 the uniform resource locator to the print job acceptor based upon the selection of the direct print
3 of the document.

1 7. (Original) The method of claim 5 wherein cursor control device comprises a
2 computer mouse and the single operation comprises depressing a mouse button to cause the
3 context menu to be displayed and releasing the mouse button with the cursor positioned over a
4 direct print menu selection to cause the direct print of the document identified by the uniform
5 resource locator to be selected.

1 8. (Previously Presented)The method of claim 1 further comprising configuring an
2 application for one click printing prior to providing a document identifier.

1 9. (Previously Presented)The method of claim 8 wherein the configuring an
2 application for one click printing comprises installing an application plug-in for interpreting the
3 user actions.

1 10. (Original) The method of claim 9 wherein the installing further comprises
2 selecting a print job acceptor for providing one click printing.

1 11. (Original) The method of claim 9 wherein the installing further comprises
2 displaying a menu for selecting a print job acceptor for providing one click printing.

1 12. (Previously Presented) The method of claim 9 wherein the installing further
2 comprises sending a query to all print job acceptors to determine whether a print job acceptor
3 supports direct printing.

1 13. (Canceled)

1 14. (Currently Amended) The method of claim [[13]] 1 further comprising
2 determining whether a plug-in for handling the data is installed and submitting the document
3 identifier to the print job acceptor for acquiring and printing the document when the plug-in for
4 handling the document is installed.

1 15. (Original) The method of claim 14 further comprising displaying a menu for
2 selecting viewing or printing the document when the plug-in for handling the document is
3 installed.

1 16-23. (Canceled)

1 24. (Currently Amended) An article of manufacture comprising a program storage
2 medium readable by a computer, the medium tangibly embodying one [[c~r]] or more programs
3 of instructions executable by the computer to perform a method for providing one click printing,
4 the method comprising:
5 ~~providing a document identifier for a document to a print job acceptor using a single user~~
6 ~~action; and~~
7 selecting a document,
8 determining whether the selected document can be handled by the print job acceptor;
9 submitting the document identifier to the print job acceptor for acquiring and printing the
10 document when the document can be handled by the print job acceptor; and
11 acquiring and printing the document by the print job acceptor based upon the provided
12 document identifier;
13 wherein the document identifier comprises a uniform resource locator.

1 25. (Canceled)

1 26. (Original) The article of manufacture of claim 24 wherein the single user
2 action comprises clicking on the uniform resource locator.

1 27. (Original) The article of manufacture of claim 26 wherein the providing
2 comprises sending the uniform resource locator to the print job acceptor.

1 28. (Previously Presented) The article of manufacture of claim 24 wherein the single
2 user action comprises displaying a context menu associated with the uniform resource locator
3 and selecting to direct print the document identified by the uniform resource locator using a
4 single operation of a cursor control device.

1 29. (Original) The article of manufacture of claim 28 wherein the providing
2 comprises sending the uniform resource locator to the print job acceptor based upon the selection
3 of the direct print of the document.

1 30. (Original) The article of manufacture of claim 28 wherein cursor control
2 device comprises a computer mouse and the single operation comprises depressing a mouse
3 button to cause the context menu to be displayed and releasing the mouse button with the cursor
4 positioned over a direct print menu selection to cause the direct print of the document identified
5 by the uniform resource locator to be selected.

1 31. (Previously Presented) The article of manufacture of claim 24 further comprising
2 configuring an application for one click printing prior to providing a document identifier.

1 32. (Original) The article of manufacture of claim 31 wherein the configuring an
2 application for one click printing comprises installing an application plug-in for interpreting the
3 user actions.

1 33. (Original) The article of manufacture of claim 32 wherein the installing
2 further comprises selecting a print job acceptor for providing one click printing.

1 34. (Original) The article of manufacture of claim 32 wherein the installing further
2 comprises displaying a menu for selecting a print job acceptor for providing one click printing.

1 35. (Original) The article of manufacture of claim 24 wherein the installing further
2 comprises sending a query to all print job acceptors to determine whether a print job acceptor
3 supports direct printing.

1 36. (Canceled)

1 37. (Currently Amended) The article of manufacture of claim [[36]] 24 further
2 comprising determining whether a plug-in for handling the document is installed and submitting
3 the document identifier to the print job acceptor for acquiring and printing the document when the
4 plug-in for handling the document is installed.

1 38. (Original) The article of manufacture of claim 37 further comprising displaying
2 a menu for selecting viewing or printing the document when the plug-in for handling the document
3 is installed.
